The program of the school is scheduled the following thematic sections:

1. deep structure of the crust,
2. seismic survey,
3. interpretation of geophysical fields,
4. geodynamics,
5. thermal field of the earth,
6. magnetometric study,
7. electrometric study,
8. environmental studies.

***Requirements for registration reports***

The report should be no more than 3 pages, including figures. Text typed in the editor Microsoft Word. Font Times New Roman 14, line spacing - single, all margins 2 cm. After the title, the new line are printed: surname, first name, middle name of author, his position, affiliation, postal address, phone, fax, e-mail address имя, information about the scientific director.

Proceedings will be published by the beginning of the school, so in order to reduce timing of the press, please comply with the schedule in one of the formats: .gif, .jpg.

Do not forget our fundamental principles of reporting. Принимаются доклады, Accepted papers performed **independently**, ie collaborators should not be a "senior" colleagues, that you must express their gratitude to the final part of your report.

***The main theme of school:***

New theoretical and scientific and practical developments in the physics of solid Earth and geophysical methods of prospecting and exploration of mineral deposits.

***Schools objectives:***

- improving research and extension scientific outlook of graduate students, undergraduates and students specializing in geophysics,
- development of the creative activity of young scientists.
